Under the present tariff relations
with Cuba we have no advantage
over any other nation and as a
consequence we are Germany increasing
her Cuban trade while ours is falling
off. If there should be a reduction
on sugar and corresponding reciprocal
relations, most of Cuba's goods
would be purchased in this country
to the advantage of those very man-
ufacturers who are anxious to keep
up the tariff barriers.
While Governor Taft is minimizing
the difficulties to be encountered in
the Philippines, the public is reading
of the terrible march of our soldiers
through Samar. What the country
wants is the "truth, the whole truth
and nothing but the truth" about
the Philippines. At present, the ad-
ministration is giving out some
statements that are well-informed.

Frivolous communities are not adverse
to giving social reforms a free hand
in applying their theories. As a result
of experiments Paris has decided to
let a company supply gas at a fair
rate instead of accepting an oppor-
tunity to monopolize the gas-works.
The question naturally arises as to
what more Cuba could expect from
a party that thinks more of its
own selfish interests than it does
of the nation's obligations, and the ob-
ligations that common humanity
should impose.

Twenty-seven different freight
yards in Chicago are to be consolida-
ted in one locality to make the work
of sorting and shifting the cars from
one line to another less troublesome
than before. The new yard will be
three miles long and seven hundred
feet wide, and built on a slope that
allows a large part of the work to be
done by gravity and the use of brakes.
The yard can easily handle and sort
8,000 cars in a day.

With a very highly commendable
local patriotism, State Representative
Brighter, of New Jersey has written
a book to prove that the life of the
malignant New Jersey mosquito is
good for rheumatism. There is no
doubt but what it makes a man forget
his rheumatism and every other
ailment.

Habitual drunkenness is a direct
cause for divorce in six states of the
union. It could be extended to the
remainder with great justice to
women who occupy the unfortunate
and hopeless position of the drunk-
ard's wife. The supreme court of
West Virginia recently decided a
case of this kind in favor of the wife,
the deciding justice saying: "No
woman is compelled to live with
that worst of all brutes—a drunken
brute—to the peril of her health and
life."

An interesting illustration of the
quickness with which international
strife are forgotten is found in the
fact that Spain has asked that the
United States shall be especially rep-
resented at the festivities in honor
of the coming of age of the young
king in May next, and this govern-
ment has promised to send a special
commissioner.

A Paris dispatch says a scientist
has discovered that the use of cigar-
ette made with coffee leaves will
cure the tobacco habit. They are
not unpleasant, can be smoked with-
out injury, and produce an uncon-
querable aversion to tobacco.

The mayor of Houghton, Mich., is
a disgusted man says a neighboring
contemporary. A stranger left his val-
ise on the wharf for a few hours to
MIRROR, SCALES, ETC.

There was a man. And his
mirror said "sallow skin."
And the scales said "losing
weight." And his friends did
wag their heads as he passed
by. But being a prudent man
he forthwith swallowed daily
certain pleasant doses of Scott's
Emulsion.

Then his mirror said "ruddy
face." And the scales said
beneath his weight. And his
friends looked upon him with
amazement.

history.)

look for work. When he returned
the mayor hired him to drag the riv-
er for the body of a drowned man.
After working some time curiosity
prompted the stranger to ask the
victim's name. The ensuring ex-
planation brought out that the own-
er of the valise was supposed to have
fallen in, and the stranger was drag-
ing for his own remains. He re-
ceived his pay, but the mayor says
that in future all drowned persons
will have to swear to the fact before
he will hire them to recover their
own bodies.

The cost of living in New York city
is said to be higher this year than
ever before. Everything that could
go up, except house rent, has come
up from 30 to 50 per cent. The price
of meat is higher than it has been
in ten years. The prices of other com-
modities of general use in every
household have increased gradually
during the last five years and a com-
parison of wholesale and retail prices
of to-day with those of 1897 shows an
increase that is startling. The only
articles in a long list that have cheap-
ened are coffee and flour.

The strangest golden wedding present
ever given to a celebrating aged
couple is the tombstone set by an
enterprising marble dealer to the
section of the Baptist church at Dan-
ville, Mass., on that occasion. Both
golden bride and bridegroom, how-
ever, were charmed with the atten-
tion, and have ordered the stone to
be set up in their lot in the cemetery.

"The latest 'yells,'" reports the
Kansas City Journal, "is that of the
convicts on their way from the jail
in the county in which they were
sentenced to the penitentiary. A
gang of 15 of them from Buchanan
county, the sheriff's guests on a
special car, gave vent to their yell at
each railway station they passed between
St. Joseph and Jefferson City a few
days ago: 'Two years—five years—
we will stay; didn't like St. Joe, any
way!'"

Carelessness in letter-writing is a
fault unfortunately as common as it
is serious. It is annoying in any re-
lation, and in business matters it
causes more trouble than anything
else except dishonesty. One would
think that the most rattle-brained
writer would at least remember to
sign his name plainly and give his
address, but business houses are con-
stantly annoyed by correspondents
who do neither.

A puny child is always an anxiety
to the parents. There seems gen-
erally no reason why the little one
should be weak when it is not well.
But the fact is that it does not
matter how much food the child
takes if the stomach cannot extract
the nourishment from it. No ben-
efit can be derived from just eating.
That is the condition of many a
sickly child. The stomach and or-
gans of digestion and nutrition are
not doing their work, and the body
is not really starving. It is little use
to give fish foods, like cod liver oil
or emulsions, in such a case, because
these also have to be digested; they
may lighten the stomach's labor, but
they don't strengthen it. Strength
is what the stomach needs. Dr.
Pierce's Medical Discovery
strengthens the stomach, nourishes
the nerves and increases the action
of the blood making glands. It is
superior to every other preparation
for children's use, on account of its
body building qualities, and also be-
cause it is pleasant to taste and con-
tains no alcohol, whisky or other in-
toxicant. Dr. Pierce's Pleasant
Pilllets are a valuable aid when the
bowels are irregular. They are
small. Children take them readily.

MRS. DAVIS AT
LEGISLATURE.
Overcome By the Warm
Greetings in Mississippi.

JACKSON, Miss., Feb. 16.—Mrs.
Jefferson Davis appeared before the
legislature of Mississippi and her
presence caused a very affecting
scene. She was introduced to the
joint session by Senator Cayce, who
elaborated Jeff. Davis and spoke of
his distinguished services to his
country and of the nation's love of
the people of Mississippi for the only
president of the confederate states.
Mrs. Davis burst into tears when she
attempted to reply.

"Gentlemen," said she, "I shall
always tenderly love the people of
Mississippi who clung to the cause
of a deserted man. I can say no
more."
Mrs. Davis was assisted from the
speakers stand and the old veterans,
children and little children crowded
around her.

Mrs. Davis denies that she will off-
er Beauvoir for sale for a soldier's
home. She says she has no idea of
disposing of the property.

all kinds of wounds are healed.
J. S. Gentry, St. Paul, Ark., says:
"From 1892 I suffered with the pro-

JOINT COMMITTEE SAYS BLAME RESTS WITH COMMISSIONERS.

Report Recommends Removal of Messrs. Breathitt,
Knight, Shryer, Walker and Ware, Who
Held Responsible For Lack of Harmony.

The following dispatch from
Frankfort, dated February 17, is pub-
lished in Tuesday's Courier-Journal:
"The joint committee of charita-
ble institutions today drew up its re-
port on the recent visit to the chari-
table institutions of the state. The
committee recommends the removal
of Commissioners James Breathitt,
Charles Knight, M. F. Shryer, J. B.
Walker and R. W. Ware, of the
Hopkinsville Asylum Board. They
report that the Lexington Asylum is
in good condition and \$74,000 to be ap-
propriated for improvements there.
They recommended an appropriation
of \$25,000 for a steam plant and laun-
dry at the Deaf Mute Institute at
Danville and also an increase from
\$11,000 to \$15,000 in the annual ap-
propriation for that institution. They
recommended the payment of the \$16-
000 judgment against the Lakeland
Asylum for damages done by bad
sewerage. The senate committee
separately recommends that \$75,000
be appropriated to establish a school
of epileptics at Lakeland. In regard
to the Western Kentucky Asylum
muddle the committee reports as
follows:
"The joint committee next visited
the Western Kentucky Asylum for
the insane, and at this institution,
as at the others visited, the commit-
tee found that every effort is made
to look after the comforts of those un-
fortunate who are placed in the asy-
lum, to mitigate their sufferings and
to make them as comfortable as pos-
sible; and without in any manner at-
tempting to disparage the manage-
ment of other institutions visited this
committee is of the opinion that in
some respects this asylum is in bet-
ter condition than any of the others.
It is due both to the management
of same and to the character of the
buildings at Hopkinsville."
Charge Unjust.
"While at this asylum the commit-
tee heard from various persons con-
cerning the unfortunate difference
between some of the commissioners
of the asylum and the superintendent
and officers thereof; and, after return-
ing to Frankfort, some of the com-
missioners of the asylum appeared
before this committee and made a
statement of their case.
"After a full investigation of the
charges made by the commissioners
of the Western Asylum against the
officers of said asylum, the commit-
tee is of the opinion that the charges
in their report to the governor, and
which was submitted to the general
assembly, are unjust and without
foundation. It was admitted by
these commissioners that the conduct
and management of the asylum since
Dr. W. W. Ray became superintend-
ent were excellent, and that the sub-
ordinate physicians and employees
have since that time discharged their
duties efficiently, and that every ef-
fort is being made for the proper care
of the unfortunate in this asylum. It
was also stated by these commission-
ers who addressed this committee,
that the differences between them
and the present officers of the asy-
lum were of such a character that a
continuance of the relationship of
commissioners and officers would be
detrimental to the best interests of
the asylum.
"Since the committee visited the
asylum and since hearing at Frank-
fort from the commissioners of the
asylum the senate has confirmed the
nomination of Dr. Ray to be super-
intendent of the asylum, and Drs.
Lackey and Stevens to be first and
second assistant physicians respect-
ively, and Mr. Buckner, Leavey to
be steward. This indicated that the
senate has confidence in the honesty
and capacity of these gentlemen, and
that they are qualified for the posi-
tions which they hold. It is with
these that the commissioners herein-
after named are at variance.
Fault With Commissioners.
"This committee is of the opinion
that the fault for this lies with these
commissioners, and while this commit-
tee knows most of the members
personally and all of them by reputa-
tion, that the commissioners are all
gentlemen of high character, yet
their conduct in this controversy
with the officers of the asylum has
been such as to indicate on their part
a desire to embarrass these officers in
the discharge of their duties and to em-
barrass the state administration
rather than a desire to advance the
interests and welfare of the asylum,
and in this they have failed to dis-
charge the duties of their office, and
it is therefore the opinion of this
committee that a continuance of
these commissioners in office would
result in grave injury to the asylum.
Therefore, the committee recom-
mends the removal of the follow-
ing named officers of the asylum, and
in this they have failed to dis-
charge the duties of their office, and
it is therefore the opinion of this
committee that a continuance of
these commissioners in office would

REVEALS A CRIME AT ADAIRVILLE.

Gang of Thieves And Incon-
daries Brought To
Justice.

(Special to New Era.)
ADAIRVILLE, Ky., Feb. 20.—
There is great excitement here on
account of the arrest of three negroes,
Frank Simmons, John McKisick
and Cap Taylor, charged with setting
fire to Bayburn & Smith's store
three weeks ago, causing four busi-
ness houses to be consumed and en-
tailing a loss of over \$10,000.

It was generally believed at the
time of the fire that the Bayburn &
Smith store had been robbed and
then fired by the thieves to cover up
their work, but no clue could be
found, and probably never would
have been but for the jealousy of a
woman.

It seems that McKisick had been
living with a woman named Doris
Ryan, and becoming enamored of
another, left Doris, who, in order to
be avenged, went to the owner of the
building burned and told all she
knew, saying that McKisick was the
leader of a gang of negroes who
robbed Bayburn & Smith's store
and then set it on fire, and also told
them where the stolen goods were
hidden.

Warrants were at once sworn out
for the men and their homes searched
and between \$300 and \$400 worth of
the stolen property was recovered.
The thieves hauled the goods away
from the store in wagons.

The five members of the gang that
have not been caught live in the
northern portion of the county. They
are hiding out, but it is believed they
will be apprehended in a day or two.
McKisick, Simmons and Taylor have
been taken to the Bowling Green
jail for safe keeping, as the
sentiment in Logan county is so
strong against them that they would
undoubtedly have been mobbed had
they been put in the Russellville jail.

A Curious Baking Powder.
The report of the Connecticut Agri-
cultural Experiment Station makes
the following comment in refer-
ence to an alkali baking powder
which is making customers in this
county. It says: A particular repre-
hensible adulteration, because very
likely to prove injurious to health, is
that practiced by the Southern Soda
Works, Nashville, Tenn., manufactur-
ers of Sweetheart One Spoon Baking
Powder. This preparation contains
more than twenty-five per cent of a
ground rock, insoluble in strong acids
and consisting chiefly of silicates and
magnesia. Prof. Penfield, of Yale Uni-
versity examined this powder and
found it to be a mixture of pulverized
talcum powder, appears under the
microscope in shape, needle-like
spicules, which made it a dangerous
adulterant in food.

SUIT IS WITHDRAWN

AND POTTER COLLEGE
PAYS THE EXPENSES.

Mildred Escapade Will Not
Be Aired In
Court.

Threats of the Potter College of
Bowling Green, against Messrs.
George Short and Eugene Haynes, of
Clovorport, has been compromised.
Potter College, according to the
Owensboro Messenger, paid the ex-
penses of the suit and withdrew its
claim.

This suit had its origin in the
midnight escapade at Potter College
more than a year ago of four young
girls of prominent Kentucky fami-
lies with four young men of Bow-
ling Green. The girls invited the
boys clandestinely to a midnight
supper and provided a ladder for
their escape from their apartments.
While the girls were in the act of
descending the ladder the president of
the college discovered the trick and
four girls were expelled. The four
young men were indicted for treas-
on, but prevented further unpleasant
publicity to the girls.

Potter College, however, through its
president, H. F. Cabell, sued Messrs.
Short and Haynes, of Clovorport, on
account for the tuition of their
daughters, Misses Ruth Haynes and
Florence Cottrell. To this account
Messrs. Short and Haynes filed an
answer and counter claim, asking
damages against Potter College in
the sum of \$50,000 for the failure of
the college authorities to protect the
normal character of their girls.

When this answer was filed the
president of the college promptly
decided to withdraw the suit.

Liquid Air
To see a rubber ball bounced on the
floor and caught, then dipped into
Liquid Air and thrown upon the floor
only to crash like glass into little
fragments; to see steel burning in
Liquid Air contained in a tin can

sufficiently startling and next Wed-
nesday night these, and many others,
will be performed at the opera house.

AGREE ON MEASURE

FOR CENTRAL CONTROL
OF ASYLUMS.

To Be Covered As The Two
State Prisons Are
At Present.

The people of Hopkinsville are
naturally very much interested in
the Carroll bill which places the in-
mate asylums of the state in the
hands of a central body of commis-
sioners to be known as the state
board of charity. Both Senator Car-
roll and Senator Richardson have
bills of this sort before the commit-
tee on charitable institutions, but the
latter has agreed to withdraw his
bill on Senator Carroll's agreeing to
except from the education of the blind,
located at Louisville, and that for
the education of deaf mutes, located
at Danville.

Under the provisions of the bill
of the commissioners may be of
the same political faith as the gov-
ernor who appoints them and one
shall be a member of the political
party that polled the next highest
vote in the next preceding election.
The first commissioner shall hold
his office for two, three and four
years respectively, as determined by
act, and as their terms expire their
successors shall be appointed for four
years. The commissioners are to be
paid \$2,500 a year each and shall
choose a president and secretary, the
latter to receive \$1,500 a year.

The commissioners shall have full
power at all times to look into and
examine the condition of the several
institutions of the state mentioned,
financially and otherwise; to inquire
and examine into their method of in-
struction and the government and
management of their inmates, the
official conduct of the officers and
employees of same, the condition of
the buildings, grounds and other
property connected therewith, and
into all other matters pertaining to
their usefulness and good manage-
ment, and for these purposes they shall

A Fireman's Close Call.
"I stuck my engine, although
every joint ached and every nerve
racked with pain," C. W. Bellamy,
a locomotive fireman, of Burlington,
Iowa, "I was weak and pale, with
out any appetite and all run down.
As I was about to give up, I got a
bottle of Electric Bitters, and, after
taking it, I felt as well as I ever did
in my life. Weak, sickly, run down
people always gain new life strength
and vigor from their use. Try them.

CHRONICLE AND COMMENT.

MR. E. O. EXCELL, WHO conducted the singing at the union revival which closed Thursday night, is a staunch believer in advertising. He owns a music publishing house in Chicago, and the last issue of the *Ladies Home Journal* had an advertisement of one of his rights doctrine preferring "are" and Republican champions of centralized government insisting upon "is."

The Arbuckle Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckle's Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. That's the reason it costs the grocer a cent a pound more than its cheap imitations. The extra cent you pay for

ARBUCKLE'S Roasted Coffee

buys much more than a cent's worth of quality and strength. A pound of Arbuckle's Coffee will give you more cups of better coffee than you would get from other packaged coffees.

Be sure you get Arbuckle's Roasted Coffee. Other packaged coffees are but imitations of Arbuckle's.
